Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 March 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Byszewski of record for reasons of record.

Claims 17-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Byszewski as applied to claims above, and further in view of Boateng of record for reasons of record.

Response to Arguments

Applicant's arguments filed 3/20/09 have been fully considered but they are not persuasive.

Claims 1-16 are apparatus or system claims. Accordingly, the limitations to the method and/or functional recitations are given little or no patentable weight.

Prior rejections have clearly demonstrated that the apparatus disclosed in Byszewski render obvious the claimed apparatus. Indeed the limitation presently added to claim 1 fails to further distinguish the apparatus.

The Board of Patent Appeals and Interferences in *Ex Parte Masham*, 2 USPQ 2d 1647 (1987) stated, "a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the structural limitations of the claimed." The device

"does not undergo a metamorphosis to a new apparatus merely by affixing instructions thereto on the use."

With regard to the above cited, applicants argue that the Byszewski patent fails to teach the structure claimed. It is unclear how a solution can be said to have structural limitations.

Applicants further argue that "Moreover, the electrodiallytically depleted salt is either discarded, or treated to recover excess water (Byszewski, col. 8, lines 15-17; Figure 5). Thus, the electrodiallytically depleted salt is not being "reused for regeneration of an ion exchange resin" such that it cannot be resultant brine solution."

What is the structure of the "reused" water which can distinguish it from the apparatus of Byszewski.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
